DOI: <https://doi.org/10.1017/9781316869604.002>. pp 1-16. Export citation. Summary. All international organizations exist in the conceptual and legal space between state sovereignty and legal obligation. They are created by the commitments made by sovereign states, and their purpose is to bind those states to their commitments. This chapter examines three forces in world politics: the commitments states make

# Read Book An Introduction To International Organizations Law

New?

This makes eminent sense: the law of international organizations has always been conceived (if conceived in theoretical terms to begin with) as having something to do with the links between the organization and its member states: those members set up their organizations for certain purposes, and create the legal environment to help the organization realize its functions: they provide them with powers, grant privileges and immunities, and often pay a membership contribution.
