In this entry we explore the suggestion made in Zechariah Sitchin's idea that the story in Genesis in the Bible is actually about the creation of Humans by a group of Ancient Astronaut Aliens called the Anunnaki. In books such as *The Lost Book Of Enki*, Sitchin gives an interpretation of the Genesis Bible story of the creation of Humans as really showing how Humans were created through an Ancient Astronaut Genetic experiment conducted by a Race of Extraterrestrial Beings known as the Anunnaki.

There have been many sources for this story throughout Human History, and in this post we explore the suggestion made in Chronicles of the Land of Zacharias Sitchin that the story in Genesis in the Bible is actually about the creation of man by the Anunnaki Ancient Foreigners of Mesopotamia. On the 12th Planet, Revised Genesis and The Lost Book of Enki, Sitchin provides us with the

Anunnaki DNA Genetic Code. The  
ancient genetic fragments from viruses  
found in our genome are known as  
human endogenous retroviruses or  
HERVs. The study examined the  
genome of 2,500 people across the  
globe and found genetic markers for  
HERVs. Approximately eight per cent  
of the DNA in the human body is from  
viral genetic fragments.

Drawing upon multiple sacred texts, Hardy details the genetic engineering of humanity by Anunnaki scientist Ninmah, with the help of Enki and Hermes. She reveals how Ninmah's first female human creation, Tiamat/Eve, contained more alien DNA than the earlier male one, Adamu, and how the biblical Noah represents the perfection of her work.

Enki is known as Lord of Creation and is the one who is responsible for limiting our DNA in order for us to worship the Anunnaki as gods. He ended up falling in love with his creation and commingled with us which gave us the Anunnaki DNA as well. Because the codons in our DNA were limited, the Anunnaki DNA also lies dormant in our DNA.
