The groundbreaking classic that explores how women can and should negotiate for parity in their workplaces, homes, and beyond When Linda Babcock wanted to know why male graduate students were teaching their own courses while female students were always assigned as assistants, her dean said: "More men ask. The women just don't ask." Drawing on psychology, sociology, economics, and organizational behavior as well as dozens of interviews with men and women in different fields and at all stages in their careers, Women Don't Ask explores how our institutions, child-rearing practices, and implicit assumptions discourage women from asking for the opportunities and resources that they have earned and deserve—perpetuating inequalities that are fundamentally unfair and economically unsound. Women Don't Ask tells women how to ask, and why they should.

Did you know that by failing to negotiate her starting salary for her first job, a woman may sacrifice over a half a million pounds in earnings by the end of her career? Yet, as research reveals, men are four times as likely to ask for higher pay than are women with the same qualifications. In this eye-opening book, Linda Babcock and Sara Laschever draw on research in psychology, sociology, economics and organisational behaviour as well as dozens of interviews to explore the personal and societal reasons why women seldom ask for what they need, want and deserve at work and at home. Why Women Don't Ask - a sensation when published in the US in 2003 - is a call to arms that will help you recognise the ways in which our culture perpetuates inequalities - and how you can begin to overcome them.

An enlightening blueprint of the secrets of reaching female consumers from the expert Just Ask a Woman is a powerful book about how to tap into female consumers' needs. Mary Quinlan, the founder of the premiere consultancy dedicated to marketing to women, has personally interviewed 3,000 women in the course of her research for Just Ask a Woman. Women are the decision-makers in an estimated eighty-five percent of household buying decisions, and yet far too often, products marketed specifically to them fail to connect with their needs. Here, Quinlan explores topics such as how women judge brands and advertising, how they make decisions, the effects of stress on their consumer behavior, and their increasing demands for service and communication. Quinlan rejects the traditional focus group approach in favor of highly energized and intimate talk sessions where women reveal their deeper feelings about products and services. In Just Ask a Woman marketers, brand managers, and advertisers will find a revelatory resource filled with ideas and action steps for building your brand with women-from a woman who has walked in a marketer's shoes. Mary Lou Quinlan (New York, NY) is the founder and CEO of Just Ask a Woman, a marketing consultancy dedicated to building business with women. Just Ask a Woman is a division of bcm3, a \$15 billion global communications firm whose clients include Citigroup/Women & Co., Lifetime, Saks, Hearst Magazines, Toys "R" Us, and Time Inc. Known as a brand-turnaround expert, she has helped to remake brands like Avon and Continental Airlines. Quinlan has been quoted in The New York Times, The Wall Street Journal, Fortune, Fast Company and Advertising Age and appeared on ABC, CNN, CNBC, Lifetime LIVE, Fox and nationally syndicated news shows. Her articles have been published in Marie Claire, Good Housekeeping, Redbook, and More, among others.

Popular leadership blogger gives the low-down on standing up for yourself In Pushback, top leadership consultant Selena Rezvani argues that self-advocacy is critical to success. With the unifying thread "I got divorced, and the world came into view," the words within will make readers laugh, cry, nod their heads, and feel inspired to do what they need to for themselves. In When Women Ask the Questions, Marilyn Boxer traces the successes and failures of women's studies, examines the field's enduring impact on the world of higher education, and concludes that the rise of women's studies has challenged the university in the same way that feminism has challenged society at large. Drawing on her experiences as a historian, feminist, academic administrator, and former chair of a women's studies program, Boxer observes that by working for justice—and for changes necessary to make the attainment of justice a practical possibility—women's studies ensures that women are heard in the processes and places where knowledge is created, taught, and preserved. The intellectual transformation behind the emergence of women's studies, Boxer concludes, is one of historic proportions. Like other great moments in human experience, it has given rise to a flowering of art, literature, and science, and to the challenging of previously accepted authorities of text and tradition.

For readers who loved Do You Think I'm Beautiful? Angela Thomas's new book explores a woman's need to be known and loved—just as she is. In her book Do You Know Who I Am? Angela Thomas asks God if He knows her—and ultimately does He love her—as she is, right now, today. In each chapter, she names a different identity issue, such as: "I am invisible," "I am worn out," "I am undisciplined," "I am ordinary," and "I am afraid to dream." With each honest admission, Angela teaches that God lovingly replies, "Yes, I know your heart, I see your struggle. Now ... do you know who I AM?" Ultimately Angela reveals that the secret to being known and loved lies in an intimate understanding of who God is. Each identity struggle is answered with a short biblical study on the character of God that assures readers that their personal, spiritual, and eternal fulfillment is not dependent on getting themselves together. Rather, God has a purpose for them just as they are—broken, afraid, disappointed, disillusioned. Through vivid storytelling, biblical teaching, and practical application, readers will find the heartfelt answers they seek.

The #1 international best seller In Lean In, Sheryl Sandberg reignited the conversation around women in the workplace. Sandberg is chief operating officer of Facebook and coauthor of Option B with Adam Grant. In 2010, she gave an electrifying TED talk in which she described how women unintentionally hold themselves back in their careers. Her talk, which has been viewed more than six million times, encouraged women to "sit at the table," seek challenges, take risks, and pursue their goals with gusto. Lean In continues that conversation, combining personal anecdotes, hard data, and compelling research to change the conversation from what women can't do to what they can. Sandberg provides practical advice on negotiation techniques, mentorship, and building a satisfying career. She describes specific steps women can take to combine professional achievement with personal fulfillment, and demonstrates how men can benefit by supporting women both in the workplace and at home. Written with humor and wisdom, Lean In is a revelatory, inspiring call to action and a blueprint for individual growth that will empower women around the world to achieve their full potential.
