Exhaustion (fatigue) and then burnout can happen to anybody. Being autistic can make fatigue and burnout more likely, due to the pressures of social situations and sensory overload. If your child or the person you care for is experiencing fatigue or burnout, helping them to manage their energy levels is essential, as this guide explains.

Autistic fatigue - a guide for parents and carers

The Autism Language Launcher gives you something totally new: a step-by-step guide that ignites language lift-off by using methods such as tapping into your child's innate intelligence, going with your child instead of against your child and providing techniques that work with adults on the spectrum.
