" Success is the point where your most authentic talents, passion, values, and experiences intersect with the chance to contribute to some greater good. " --Bill Strickland According to MacArthur Fellowship " genius " award winner Bill Strickland, a successful life is not something you simply pursue, it is something that you create, moment by moment. It is a realization Strickland first came to when, as a poor kid growing up in a rough neighborhood of Pittsburgh, he encountered a high school ceramics teacher who took him under his wing and went on to transform his life. Over the past thirty years, Bill Strickland has been transforming the lives of thousands of people through the creation of Manchester Bidwell, a jobs training center and community arts program. Working with corporations, community leaders, and schools, he and his staff strive to give disadvantaged kids and adults the opportunities and tools they need to envision and built a better, brighter future. Strickland believes that every one of us has the potential for remarkable achievement. Every one of us can accomplish the impossible in our lives if given the right inspiration and motivation to do so. We all make ourselves " poor " in one way or another when we accept that we are not smart enough, experienced enough, or talented enough to accomplish something. Bill Strickland works with the least advantaged among us, and if he can help them achieve the impossible in their lives, think what each of us can do. Among Bill Strickland ' s beliefs: People are born into this world as assets, not liabilities. It ' s all in the way we treat people (and ourselves) that determines a person ' s outcome The sand in the hourglass flows only one way. Stop going through the motions of living--savor each and every day. Life is here and now, not something waiting for you in the future. You don ' t have to travel far to change the life you ' re living. Bill grew up in the Pittsburgh ghetto, four blocks from where he came to build one of the foremost job training centers in the world. He now speaks before CEOs and political leaders, church congregations and civic leaders. You only need to change your thinking to remake your world. Through lessons from his own life experiences, and those of countless others who have overcome their circumstances and turned their lives around, Make the Impossible Possible shows how all of us can build on our passions and strengths, dream bigger and set the bar higher, achieve meaningful success and help mentor and inspire the lives of others.

In this " brave and heartbreaking novel that digs its claws into you and doesn ' t let go, long after you ' ve finished it " (Anna Todd, New York Times bestselling author) of All Your Perfects, a workaholic with a too-good-to-be-true romance can ' t stop thinking about her first love. Lily hasn ' t always had it easy, but that ' s never stopped her from working hard for the life she wants. She ' s come a long way from the small town where she grew up--she graduated from college, moved to Boston, and started her own business. And when she feels a gorgeous neurosurgeon named Ryle Kincaid, everything in Lily ' s life seems too good to be true. Ryle is assertive, stubborn, maybe even a little arrogant. He ' s also sensitive, brilliant, and has a total soft spot for Lily. And the way he looks in scrubs certainly doesn ' t hurt. Lily can ' t get him out of her head. But Ryle ' s complete aversion to relationships is disturbing. Even as Lily finds herself becoming the exception to his " no dating " rule, she can ' t help but wonder what made him that way in the first place. As questions about her new relationship overwhelm her, so do thoughts of Atlas Corrigan--her first love and a link to the past she left behind. He was her kindred spirit, her protector. When Atlas suddenly reappears, everything Lily has built with Ryle is threatened. An honest, evocative, and tender novel, It Ends with Us is " a glorious and touching read, a forever keeper. The kind of book that gets handed down " (USA TODAY).

Democracy can mean a range of concepts, covering everything from freedoms, rights, elections, governments, processes, philosophies and a panoply of abstract and concrete notions that can be mediated by power, positionality, culture, time and space. Democracy can also be translated into brute force, hegemony, docility, compliance and conformity, as in wars will be decided on the basis of the needs of elites, or major decisions about spending finite resources will be the domain of the few over the masses, or people will be divided along the lines of race, ethnicity, class, religion, etc. because it is advantageous for maintaining exploitative political systems in place to do so. Often, these frameworks are developed and reified based on the notion that elections give the right to societies, or segments of societies, to install regimes, institutions and operating systems that are then supposedly legitimated and rendered infinitely just because formal power resides in the hands of those dominating forces. This book is interested in advancing a critical analysis of the hegemonic paradigm described above, one that seeks higher levels of political literacy and consciousness, and one that makes the connection with education. What does education have to do with democracy? How does education shape, influence, impinge on, impact, negate, facilitate and/or change the context, contours and realities of democracy? How can we teach for and about democracy to alter and transform the essence of what democracy is, and, importantly, what it should be? This book advances the notion of decency in relation to democracy, and is underpinned by an analysis of meaningful, critically-engaged education. Is it enough to be kind, nice, generous and hopeful when we can also see signs of rampant, entrenched and debilitating racism, sexism, poverty, violence, injustice, war and other social inequalities? If democracy is intended to be a legitimating force for good, how does education inform democracy? What types of knowledge, experience, analysis and being are helpful to bring about newer, more meaningful and socially just forms of democracy? Throughout some twenty chapters from a range of international scholars, this book includes three sections: Constructing Meanings for Democracy and Decency, Justice for All as Praxis; and Social Justice in Action for Democracy, Decency, and Diversity: International Perspectives. The underlying thread that is interwoven through the texts is a critical reappraisal of normative, hegemonic interpretations of how power is infused into the educational realm, and, importantly, how democracy can be re-situated and re-formulated so as to more meaningfully engage society and education.
