The ABS pump/module is located on the drivers side, towards the back of the engine bay under the brake servo. Although the the pump looks relatively easy to access from the top of the engine bay, there are obstructions

File Type PDF

Bmw Z4 Ate

including the brake lines, which would make it very difficult to lift out this way.

If you replace the pump, you must go through the BMW pump flush protocol which assures no air bubbles in the ABS section of the brake lines. You must have proper software to do this.

File Type PDF

Bmw Z4 Ate

Before you do anything, I would advise pulling all the codes from the car that are related to this problem and see if it might NOT be the ABS pump or controller.
