Financial freedom is the ultimate aim for everyone during his life. But it can't be achieved just by earning more & more money. It's a process of strategic investment planning through earning stage of life. Everyone can become rich in later stage of the life by planning his early phase. One penny saved today may earn one penny at regular intervals during long term. The formula of calculating future value of money also takes into consideration the following factors: 1. Amount Invested 2. Rate of Return 3. Time Duration It says that more you invest, more you will get in return. Second, more returns means more money. And longer the time duration of investment, better returns you will get. We can't control returns, we can't invest big amounts but we can invest small amounts at regular intervals over a long period of time. If this amount is properly diversified in different asset classes, it can help you to achieve better returns with the security of the money invested. Mutual fund helps you to take exposure of different asset classes and get the best returns. Let's come to a journey towards freedom through this book.

Open government initiatives have become a defining goal for public administrators around the world. As technology and social media tools become more integrated into society, they provide important frameworks for online government and community collaboration. However, progress is still necessary to create a method of evaluation for online governing systems for effective political management worldwide. Open Government: Concepts, Methodologies, Tools, and Applications is a vital reference source that explores the use of open government initiatives and systems in the executive, legislative, and judiciary sectors. It also examines the use of technology in creating a more affordable, participatory, and transparent public-sector management models for greater citizen and community involvement in public affairs. Highlighting a range of topics such as data transparency, collaborative governance, and bureaucratic secrecy, this multi-volume book is ideally designed for government officials, leaders, practitioners, policymakers, researchers, and academicians seeking current research on open government initiatives.

Scientific Study from the year 2007 in the subject Business economics - Investment and Finance, , language: English, abstract: Financial inclusion is delivery of banking services at an affordable cost ('no frills' accounts,) to the vast sections of disadvantaged and low income group. Unrestrained access to public goods and services is the sine qua non of an open and efficient society. As banking services are in the nature of public good, it is essential that availability of banking and payment services to the entire population without discrimination is the prime objective of the public policy.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Insurance Intermediaries play a vital role in insurance distribution & services. Distribution channels are the extended arm of insurers. Physical sales forces and intermediaries are responsible for the majority of insurance distribution across geographies and lines of business. Insurance intermediaries serve as a bridge between consumers and insurance companies.

How do you know how much to invest in a home? How do you choose the right loan and lender? How do you qualify for a home loan? How do you beat your odds to get the best deal? What to take care of during paper work? What do you do when your application gets rejected? How do you deal with the financial distress during loan repayment period? This book answers several questions like that. All living beings share a basic need to have a home, and what could be better if you could call it your own! Unless you are sitting on a pile of cash, you would agree that buying a house is expensive and may very well involve taking a life-time loan. A home loan will circumvent the need for finances which you might not possess right now to buy your dream house. It is equivalent to buying something in present with future money. Home loan gives tangible and very realistic hopes of a future of home ownership to the borrowers. However, only those who have borrowed before would know how complex the business of first looking for a right lender, then taking a loan and finally managing it for the rest of repayment period can be. This book is a simple approach to educating yourself about all there is at the end of the home loan tunnel. Potential homeowners and real estate developers alike will find significant insights about taking and managing a mortgage in the Indian market. It is one of the most comprehensive and complete works done on home loan management. A perfect guide to potential and existing homeowners who have taken or are planning to undertake a home loan. It is a step-by-step guide to buying a house on a home loan and then managing the mortgage stress, both

About the book The book provides detailed analysis of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 which replaced the Listing Agreement and were notified on 2nd September 2015. These Regulations impose considerable volume of compliance obligations on listed entities and every listed entity is obligated to comply with them. The volume of the Regulations and the pace at which they have been undergoing frequent changes makes the task of compliance a hard one for the compliance officers. This book attempts to simplify the complex mass of the Regulations and bring in the relevant provisions of the Companies Act, 2013 so as to assist the compliance officers in their task of compliance. These Regulations apply to the listed entity who has listed any of the following designated securities on recognised stock exchange(s): (a) Specified securities listed on main board or SME exchange or institutional trading platform; (b) Non-convertible debt securities, non-convertible redeemable preference shares, perpetual debt instrument, perpetual non-cumulative preference shares; (c) Indian depository receipts; (d) Securitised debt instruments; (e) Security receipts; (f) Units issued by mutual funds; (g) Any other securities as may be specified by the Board. It would be immensely useful for Company Secretaries, Law professionals & Chartered Accountants. Key highlights Covering detailed analysis of provisions applicable for listing of specified securities on recognized stock exchange(s). Topics have been thoroughly explained using judicial pronouncements.
