## *Fixed Asset Accounting A Comprehensive Guide [EBOOK]*

A fixed asset is property with a useful life greater than one reporting period, and which exceeds an entity's minimum capitalization limit. A fixed asset is not purchased with the intent of immediate resale, but rather for productive use within the entity. Also, it is not expected to be fully consumed within one year of its purchase.

## *Fixed asset — AccountingTools*

Fixed assets are always initially recognised at cost. Cost can be made up of several components, including: the initial purchase price; irrecoverable taxes; duties; legal fees; brokerage fees; and. other costs directly attributable to bringing the asset to its location and condition intended by management.

### *AssetAccountant™*

Fixed assets are tangible assets purchased for the supply of services or goods, use in the process of production, letting out on rent to third parties or for using for administrative purposes. They are bought for usage for more than one accounting year.

### *Fixed Asset Accounting | Examples, Journal Entries, Dep ...*

If an entity rents some assets and then ceases to rent them, the assets should be transferred to inventories at their carrying amounts as they become held for sale in the ordinary course of business. [IAS 16.68A]

### *IAS 16 — Property, Plant and Equipment*

The decrease recognized in other comprehensive income decreases the amount of any revaluation surplus already recorded in equity. If a fixed asset is derecognized, transfer any associated revaluation surplus to retained earnings. The amount of this surplus transferred to retained earnings is the difference between the depreciation based on the original cost of the asset and the depreciation based on the revalued carrying amount of the asset.

### *The revaluation model — AccountingTools*

Fixed assets —also known as tangible assets or property, plant, and equipment (PP&E)—is an accounting term for assets and property that cannot be easily converted into cash. The word fixed indicates that these assets will not be used up, consumed, or sold in the current accounting year.

Fixed asset accounting relates to the accurate logging of financial data regarding fixed assets. For this purpose, companies require details on a fixed asset's procurement, depreciation, audits, disposal, and more. Since fixed assets form a substantial part of a company's investments, it is imperative to record its specifications correctly.
