The book gives practical instruction and guidance in the use of accounting for effective control and higher profit in hotel and catering operations. The author covers all aspects of the subject, setting arguments and examples in a real context.

In order to survive in the changing business environment, organisations should rethink their strategic philosophy and the role of management accounting. The primary focus of this book is on techniques and concepts of cost and management accounting for strategic business decisions. It focuses on both conventional and contemporary issues. The book will serve as a reference source for practicing accountants, senior executives and managers working in human resources, operations, and accounting divisions. As the principal focus of this book is on conceptual foundations, it would also be ideal for courses in graduate programs such as master's degree, MBA or Executive MBA.

The third edition of Management and Cost Accounting continues to offer a wide ranging suite of resources to serve the needs of students, instructors and professionals. With a strong European focus, this text provides a definitive coverage of established and contemporary issues within Management and Cost Accounting. Drawing on the latest research and surveys, the authors bring technical and theoretical concepts to life through extensive use of real world examples and case studies. Features Richly illustrated with a striking new full colour text design and photographs to further engage the reader, reinforce the practical relevance of issues discussed. Extended and fully updated coverage of Strategic Management Accounting In depth European and Harvard Case Studies. A mix of new, and classic cases which pull together themes and offer a broader perspective of how management accounting can be applied in a range of different contexts. Cases include questions, and guided solutions are provided on the CWS accompanying the book.
