Its funny, last year, my ol' man said he wanted to hug a sloth for his birthday...we called the zoo and they said NO because apparently they have a tendency to be aggressive. So when I saw this, not only did I laugh a little to myself, but I ordered it. Knowing full and well he would love it...and he did.

Celebrate the beauty and strength of solitude with this poetic observation of the animal kingdom and those who move through it on their very own. That silvery cloud swimming in the sea is actually a school of fish. That splash and crash is a pod of whales, sounding. Behold, a fever of stingrays gliding by. But what do you call a group of octopuses? A tangle of octopuses? A chandelier of octopuses? A multipus of octopuses? No, octopuses prefer to be alone. The octopus is a solitary animal. This lyrical, nonfiction text honors animals who live in solitude, in contrast to others who live in groups. Against a backdrop of the specific names of various animal tribes (a parade of elephants, a tower of giraffes, a dazzle of zebras), Stein shines a spotlight on those animals who go through life on their own. With nature at his back, Stein invites readers to draw strength and comfort from the behaviors of fellow animals. Perfect for children who are introverted or tend to be alone, and their parents...as well as all children, who will be encouraged to respect the "natural" choices of their peers.

A story about many different sheep, and one that seems to be missing.

Everyone needs hugs, even if they're prickly. When Hedgehog wakes up feeling down in the snout and droopy in the prickles, he knows a hug will make him feel much better. But none of his animal friends are eager to wrap their arms around Hedgehog's prickles, and he's too smart to fall for Fox's sly offer. Then Hedgehog gets a surprise: Another animal in the forest is feeling exactly the same way. Luckily, both are kind and brave enough for the perfect hug.
