The source of the English word perfume though is from the Latin "per fumem" meaning "through smoke". Rather like a "message sent through the smoke of incense". So, Perfume may have deeper meaning that relates to communication.*

Then, we see EDP which is "Eau de Perfume" and, this is going to be anywhere from 15% to 30%. This percentage and the concentration is going to have a big factor on how long the fragrance is going to last. It's also going to affect the cost. Usually, the higher concentration the higher cost we're going to see.
