Leading, managing and developing people. Middle managers in social services are responsible for leading, managing and developing workers as well as role modelling participatory leadership across the organisation. In addition to their direct supervisory responsibilities, they indirectly influence how other staff are managed and supervised. This in turn impacts on how practitioners and support staff interact with people using services, families and carers.

Leading, managing and developing people - Portsmouth ...

Leading people In its simplest form, a leader is someone who has followers. Therefore, anyone who can influence people to follow them has leadership qualities. However to be an 'effective' leader, an individual requires the correct behaviours and skills to manage people and bring them along on a shared journey.

Leading people | Staff Learning and Development | StaffNet ...

The framework focuses on helping NHS and social care staff to develop four critical capabilities: systems leadership for staff who are working with partners in other local services on "joining up" local health and care systems for their communities; established quality improvement methods that draw on staff and service users' knowledge and experience to improve service quality and efficiency

Leading, Managing and Developing People is critical reading for all those studying the CIPD Level 7 Advanced module in Leading, Managing and Developing People as well as all HR and L&D practitioners. It provides extensive coverage of the aims, objectives and contribution of HRM such as the scope and nature of human resources, HR's role when organisations grow and how to ensure professionalism and ethical behaviour when managing people. This book also includes discussion of major contemporary themes in leading, managing and developing people including leadership development, flexibility, agile working and the psychological contract. This ensures that readers are fully prepared to lead, manage and develop staff in the new world of work. With rigorous academic underpinning and clear theoretical exploration, Leading, Managing and Developing People also includes practical advice on key activities including recruitment, job design, performance management, motivation and reward. Supported by online resources including an instructor's manual, lecture slides, international case studies, example essay questions and annotated web links, this is an indispensable guide for both students and practitioners.

'This cutting-edge publication is drawn on international research and practice, and undoubtedly encourages reflection and personal development. The authors are experts in the field of education leadership and management.' - Professor Raj Mestry, University of Johannesburg The Third Edition of this successful and respected book covers leadership and management of people at all levels in educational organisations. It contains up-to-date research and literature, covering the entire spectrum of educational institutions. This new and revised edition: deals with issues such as succession planning, leadership development and diversity has an enhanced focus on international trends, examples and research acknowledges the changing English context, including the shift to system leadership, academies and free schools covers changes in Scotland, Wales and Northern Ireland The book will be of great interest to postgraduate students, researchers and academics; candidates on professional leadership qualifications; middle and senior managers, and aspiring leaders in schools and colleges. Tony Bush is Professor of Educational Leadership at the University of Warwick, UK and Visiting Professor at the University of the Witwatersrand, South Africa. David Middlewood is a Research Fellow at The University of Warwick.

Praise for the first edition: 'Peter Earley and Sara Bubb bring together, in a very accessible way, theoretical and practical aspects of CPD and suggest how leadership and management can be applied in this vital area of staff development. This book will help co-ordinators and school leaders to develop their most important resource - the people who work with the children' - Richard Stainton, Education Journal 'The most obvious target user for the book is the (not rare) person suddenly hoist with the staff development responsibility petard: but, thoughtfully used, most staffrooms will include several people who could benefit from thinking about its contents and putting some of the ideas into practice' - British Journal Educational Technology 'This book is a welcome and practical guide to the wealth of publications on Continuing Professional Development... [M]akes an excellent contribution to the current and widening debate on the nature of Continuing Professional Development. For School Leadership Teams it is an essential resource and reference for the managing of professional development and learning. It also serves as an excellent practical guide, and CPD coordinators reading this book will find themselves questioning and as a result developing their own practice. The book is written in accessible language using believable case studies to illustrate the wealth of research that has been carried out. The deeply embedded notion among some teachers that professional development consists of the one day course is challenged, and the reader is left in no doubt as to the range of opportunities that exist and need for them to be harnessed in order to ensure school improvement. The book is will surely act as a catalyst for the review and development of CPD in schools' - Stephen Merrill, Edge Hill College of Higher Education, British Journal In-Service Education 'A practical guide to all aspects of professional development which ought to be in the possession of every professional development coordinator in every primary and secondary school in the land - and their colleagues in leadership teams' - Tim Brighouse, TES

Friday Magazine This new edition of a best-selling book provides an up to date overview of Continuing Professional Development (CPD), combined with a guide to best practice. Changes include: - expanded sections on the professional development of support staff and the wider school workforce (particularly important in the light of workforce remodelling) and the evaluation of CPD - more on making sure that professional development has an impact, and provides good value for money - the common core of skills and knowledge for the children's workforce, the new standards for qualified teacher status, induction, threshold, excellent teachers and advanced skills teachers as well as those for higher level teaching assistants. Drawing on the latest research, the contents include: - a clear explanation of CPD and latest developments; - practical tips on how to lead and manage CPD for a range of staff in schools - identifying training needs, designing and implementing programmes and evaluating their impact; - detailed guidance on CPD for staff at different stages of their careers. Written in a clear readable style it covers the latest standards and offers examples of current good practice. It is an essential professional reference for all those responsible for leading and managing professional learning in schools (headteachers, deputies, CPD and staff development coordinators) and Local Authorities (LAs). It will also prove invaluable to training providers and universities.

To make an effective contribution, HR specialists have to be good at management, leadership and developing both themselves and others. They also need to be aware of the management and business considerations that affect their work. Armstrong's Handbook of Management and Leadership for HR provides guidance on the processes of management and leadership with particular reference to what HR managers and aspiring managers need to know and do to make a difference. Written by renowned human resources expert and bestselling author Michael Armstrong, Armstrong's Handbook of Management and Leadership for HR covers in one volume the 'Leading, Managing and Developing People' and 'Developing Skills for Business Leadership' Chartered Institute of Personnel and Development (CIPD) modules. It includes numerous practical features such as case studies, practitioner interviews, exercises and clear learning objectives to aid learning. This is the essential book for HR students and professionals looking to broaden their skills and understanding relating to management and leadership. Online supporting resources include lecture slides, an instructor's manual, a student's manual and a literature review.

This is a big book in more ways than one. . . a detailed and illuminating exploration of leadership qualities, attributes, skills and competencies. . . the mixture of theory, reflective questions, stories, tools and practical exercises demand a level of thoughtful engagement and self-reflection rarely required by books on leadership. . . the Australian content is refreshing, as is the lack of evangelistic promises of immediate transformation. . . this book is firmly grounded in supporting the learning and skill development needed for maximum performance. (Boss magazine, August p.55). The Australian Financial Review AFR Boss If we were giving a graduate-level class in leadership and people management skills (I'm a UCLA Business and Management Program instructor) I would choose this book as the text. If a client asked for a great book to enhance his/her leadership skills, (we consult in organization, compensation and performance management) this would be one of first books I would suggest. It s that good! The book offers a comprehensive guide for developing leadership and people management skills. It s a powerful, broad-spectrum leadership toolkit with a wealth of information about skills and practices, and hundreds of suggestions and opinions from business and political leaders, consultants, and academics. This book is an outstanding resource for leaders and aspiring leaders. It is filled with an abundance of insights: the distinction it makes between a leader and a manager is one of the best, if not the best, we ve read. Just a few of the subjects covered are: the leadership-as-servant philosophy; leaders as coaches and mentors; communication; motivation; leading and managing teams; women as leaders; managing power, politics and conflict; leading organizational and cultural change; creating an innovative organization; leadership and people management in high-tech, networked; and virtual organizations. Throughout the book are bullet-point lists, exercises, and to-the-point conclusions. It is clearly written and superbly organized. An excellent bibliography and subject index top off this outstanding work. We highly recommend this book. Yvette Borcia and Gerry Stern, Stern s Management Review Maximum Performance is a comprehensive business tome. Although it is designed for students, busy executives who use the chapter summaries or chapter sections to focus on topics that interest them will find the book useful. Organizations with large collections on management or leadership will want to buy it. Business researchers with limited library space or who are looking for a good summary of current management topics may also find the book of value. . . The strength of Maximum Performance is its breadth. Forster touches on everything from whether leaders are born or made to Machiavellian strategies for dealing with toxic work environments. Anyone interested in ideas on leadership will likely find several sections of interest. Those sections that are particularly strong include the discussions on the different roles and organizational context of leadership, key issues in motivating employees, the team development process, and best practices in leading organizational change. Scott R. Jenkins, Business Information Alert Nick Forster s large text is for MBA students. He writes in a clean, clear style and frankly admits that leadership and people-management skills cannot adequately be learned from books. He knows however that good books can help, and also that clichés of management can be inspirational and will be used widely though they call for close analysis of substance or context. He is in this a modern-day Samuel Smiles, equipped with a variety of diagnostic tools. The Australian In my experience a major shortcoming of most how to books on leadership and management is that they purport to offer Silver Bullets magical solutions that, once revealed, will enrich and transform the reader and his or her organisation. Regrettably

Are you a good boss--or a great one? Get more of the management ideas you want, from the authors you trust, with HBR's 10 Must Reads on Managing People (Vol. 2). We've combed through hundreds of Harvard Business Review articles and selected the most important ones to help you master the innumerable challenges of being a manager. With insights from leading experts including Marcus Buckingham, Michael D. Watkins, and Linda Hill, this book will inspire you to: Draw out your employees' signature strengths Support a culture of honesty and civility Cultivate better communication and deeper trust among global teams Give feedback that will help your people excel Hire, reward, and tolerate only fully formed adults Motivate your employees through small wins Foster collaboration and break down silos across your company This collection of articles includes "Are You a Good Boss--or a Great One?," by Linda A. Hill and Kent Lineback; "Let Your Workers Rebel," by Francesca Gino; "The Feedback Fallacy," by Marcus Buckingham and Ashley Goodall; "The Power of Small Wins," by Teresa M. Amabile and Steven J. Kramer; "The Price of Incivility," by Christine Porath and Christine Pearson; "What Most People Get Wrong About Men and Women," by Catherine H. Tinsley and Robin J. Ely; "How Netflix Reinvented HR," by Patty McCord; "Leading the Team You Inherit," by Michael D. Watkins; "The Overcommitted Organization," by Mark Mortensen and Heidi K. Gardner; "Global Teams That Work," by Tsedal Neeley; "Creating the Best Workplace on Earth," by Rob Goffee and Gareth Jones.

Based on the popular Developing Leadership Talent program offered by the acclaimed Center for Creative Leadership, this important resource offers a nuts-and-bolts framework for putting in place a leadership development system that will attract and retain the best and brightest talent. Step by step, the authors explain how alignment with strategic goals and organizational purpose and effective developmental experiences are the backbone of a successful leadership program. An authoritative and useful book, Developing Leadership Talent is an essential tool for any leadership program.

First Published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

Introduces a realistic approach to leading, managing, and growing your Agile team or organization. Written for current managers and developers moving into management, Appelo shares insights that are grounded in modern complex systems theory, reflecting the intense complexity of modern software development. Recognizes that today's organizations are living, networked systems; that you can't simply let them run themselves; and that management is primarily about people and relationships. Deepens your understanding of how organizations and Agile teams work, and gives you tools to solve your own problems. Identifies the most valuable elements of Agile management, and helps you improve each of them.

The current business environment requires that individuals, teams, and organizations are equipped to cope with an unpredictable marketplace and increasing competition. Organizations are forced to be kinetic, organic, and without boundaries if they are to remain successful. Given these environmental and marketplace demands, scholars must rethink the applicability of existing organizational theories and frameworks. In March 2001, a conference was held with the aim of developing and articulating this new model of organizations. Scholars contributed their expertise in areas, such as leadership, human resource management, negotiation and conflict, teams, entrepreneurship, organizational change, power and influence, and diversity. The contributors focused on their own area of expertise and considered how existing theories must be altered to fit a more agile, organizational form. Theoretical and empirical questions were raised, testable hypotheses were developed, and emerging themes were uncovered. The end result of the conference is this volume. It brings together the reflections of a diverse collection of organizational theorists and researchers on the implications of this new business model within their own areas of expertise. The book's goal is to inspire organizational scholars to develop a new theory and produce sound managerial advice for how to build and maintain a successful organization in a dynamic workplace. The chapters include a review of research literature with the highlights and citations that everybody working in a field must know, followed by how the research agenda is affected by the increasingly dynamic marketplace.
