Most people would describe Katherine Berger as a responsible girl with a big heart, a loyal friend who takes care of those close to her, and the possessor of a wicked sense of humor. There was something about her that most people didn't know. "My name is Kat Berger, and I love porn." When twenty-five-year-old Kat is dragged to a porn convention by her best friend, she's both embarrassed and nervous. The last thing she ever expected was to meet someone who makes her laugh like no other. This is a story about acceptance and friendship, and a love born out of the most unexpected of places.

The heart is too much a mystery for us to approach its healing as a simple matter of finding and fixing the problem. Methods alone cannot meet the deep, aching need of souls that cry not for solutions, but for connection. 'The Beautiful Risk' encourages us to trade cure for care, expertise for partnership, and mastery for love. With perspective-shifting insights and examples, Dr. James Olthuis helps us -- both counselors and those who come for counsel -- to move beyond control and technique and join in a risky but glorious dance of relationship, love, and healing.

Doolally, on the batter, Belfast confetti, pure mule, crawthumper, flag hopper and fecker...come here till I tell you! Hiberno-English is the common speech of Ireland at all social levels. Its continuing vigour and individuality is triumphantly

illustrated here.

In the late 1990s, the European Commission embarked on a long process of introducing a 'more economic approach' to EU Antitrust law. One by one, it reviewed its approach to all three pillars of EU Antitrust Law, starting with Article 101 TFEU, moving on to EU merger control and concluding the process with Article 102 TFEU. Its aim was to make EU antitrust law more compatible with contemporary economic thinking. On the basis of an extensive empirical analysis of the Commission's main enforcement tools, this book establishes the changes that the more economic approach has made to the Commission's enforcement practice over the past fifteen years. It demonstrates that the more economic approach not only introduced modern economic assessment tools to the Commission's analyses, but fundamentally changed the Commission's interpretation of the law. Emulating one of the key credos of the US Antitrust Revolution thirty years earlier, the Commission reinterpreted the EU antitrust rules as aiming at the enhancement of economic consumer welfare only, and amended its understanding of key legal concepts accordingly. This book argues that the Commission's new understanding of the law has many benefits. Its key principles are logical, translate well into workable legal concepts and promise a great degree of accuracy. However, it also has a number of serious drawbacks as it stands. Most worryingly, its revised interpretation of the law is to large extents incompatible with the case law of the European Court of Justice, which has not been swayed by the exclusive consumer welfare aim. This situation is undesirable from the point of view of legal certainty and the rule of law.

In this highly readable and thought-provoking book, Delia

Chiario explores the pragmatics of word play, using frameworks normally adopted in descriptive linguistics. Using examples from personally recorded conversations, she examines the structure of jokes, quips, riddles and asides. Chiario explores degrees of conformity to and deviation from established conventions; the 'tellability' of jokes, and the interpretative role of the listener; the creative use of puns, word play and discourse. The emphasis in her analysis is on sociocultural contexts for the production and reception of jokes, and she examines the extent to which jokes are both universal in their appeal, and specific to a particular culture.

A sustained philosophical engagement with significant and creative French interpreters of Heidegger.

A book that charts the history of Aer Lingus up to its 75th anniversary, celebrated in 2011.
