As games grow ever-more ubiquitous in our culture and communities, they have become popular staples in public library collections and are increasing in prominence in academic ones. Many librarians, especially those who are not themselves gamers or are only acquainted with a handful of games, are ill-prepared to successfully advise patrons who use games. This book provides the tools to help adult and youth services librarians to better understand the gaming landscape and better serve gamers in discovery of new games—whether they are new to gaming or seasoned players—through advisory services. This book maps all types of games—board, roleplaying, digital, and virtual reality—providing all the information needed to understand and appropriately recommend games to library users. Organized by game type, hundreds of descriptions offer not only bibliographic information (title, publication date, series, and format/platform), but genre classifications, target age ranges for players, notes on gameplay and user behavior type, and short descriptions of the game's basic premise and appeals.

Because Scientology is not exactly a mainstream religion, there are conflicting impressions about it. In some cultures, Scientology is classified as religion, while others believe it to be a cult. Still, some groups see it as a commercial enterprise, while others claim it's a non-profit organization. This just proves that most people don't fully understand Scientology. However, the believers and followers of Scientology - including many famous celebrities such as Tom Cruise, John Travolta, Kelly Preston and Kirstie Alley, just to name a few - claim it to be a religion following the intent and of the original founder. This book was written for those who want to learn what the Church of Scientology represents, and the basic principles and beliefs of Scientology. I intend to help clarify any incorrect perceptions while revealing what Scientology is really all about. Continue reading to discover the reason behind this oft-misjudged practice once and for all.
