Migration In World History

"Migration in World History is the most revolutionary and innovative study of migration that has ever been written. It not only shows how systemic migration is for human societies, but also allows the reader to understand its different expressions (invaders, colonizers, sojourners and itinerants) and their impact on social change through time.

Migration History in World History. Editors: Jan Lucassen, Leo Lucassen and Patrick Manning. Migration is the talk of the town. On the whole, however, the current situation is seen as resulting from unique political upheavals. Such a-historical interpretations ignore the fact that migration is a fundamental phenomenon in human societies from the beginning and plays a crucial role in the cultural, economic, political and social developments and innovations.

Read Book Migration In World History

times, since about 3000 BC, various clearly identifiable groups of people have moved from area to area of the globe. In doing so they have profoundly influenced the human story. There are several different senses in which such people can be identified as groups, but few involve racial distinctions.
