Principles of Managerial Finance - Lawrence J. Gitman ...

The primary economic principle used in managerial finance is marginal cost–benefit analysis, the principle that financial decisions should be made and actions taken only when the added benefits exceed the added costs. Nearly, all financial decisions ultimately come down to an assessment of their marginal benefits and marginal costs. 13.

business arena. The text's organization conceptually links the firm's actions to its value as determined in the securities markets. Each major decision area is presented in terms of both risk and return factors and their potential impact on the owner's wealth, as reflected by share value. With a reliable and consistent framework, Gitman defines learning goals at the start of each chapter and incorporates a diverse group of pedagogical aids, using real-world examples and exercises to foster students' comprehension of both theory and practice.

The Study Guide, edited by Thomas M. Krueger of the University of Wisconsin, La Crosse, is an essential component to the Principles of Managerial Finance learning system and is carefully coordinated with the text to offer the following learning tools: Chapter summaries, organized by learning goal Topical chapter outlines, organized by learning goal for quick review Sample problem solutions Study tips A full exam with solutions A financial dictionary of key terms Students can purchase the Study Guide from our online catalog or from MyPearsonStore.
