Access Free Salamander Dissection Guide

Salamanders and other amphibians (i.e frogs) are often used for dissections. Dissection continues today as much as (if not more than) it did 50 years ago (Hart, Wood, & Hart, 2008). Globally, the number of amphibians used in classroom dissections is unknown; however, the Johns Hopkins University Center for Alternatives to Animal Testing has estimated that 6 million vertebrate animals are dissected in U.S high schools each year, well over half of which are believed to be amphibians.
