Customer Service (CS) - SAP Help Portal

For example, CS involves the planning and processing of external services, such as contracts for the maintenance and repair of equipment that a customer has either bought or rented. Maintenance planning and servicing is managed in PM; in SD you can create and maintain the relevant service contracts. Contract related charges that are incurred in PM are passed on in the form of requests for billing in SD. Here is a PDF tutorial guide about SAP CS module.

Customer Service Processing | SAP SD PDF manual tutorial

The Customer Service Module is a sub-branch of SD module for service management which is tightly integrated with various modules like SD/MM/PM/FI/CO/HR/QM/PP in SAP. I had gone through the various blogs on service management from an outbound logistics consultant perspective, but none gives me the overall scope of the customer service module, all blogs give information on returns & repairs with gaps or it is directing me towards PM area. Here I would like to list out all processes in the ...
