Since the very beginnings of the digital humanities, Papyrology has been in the vanguard of the application of information technologies to its own scientific purposes, for both theoretical and practical reasons (the strong awareness towards the problems of human memory and the material ways of preserving it; the need to work with a multifarious and overwhelming amount of different data). After more than thirty years of development, we have now at our disposal the most advanced tools to make papyrological studies more and more effective, and even to create a new conception of "papyrology" and a new model of

## Get Free Soluzioni Libro Expedite Plus

"edition" of the ancient documents. At this turning point, it is important to build an epistemological framework including all the different expressions of Digital Papyrology, to trace a historical sketch setting the background of the contemporary tools, and to provide a clear overview of the current theoretical and technological trends, so that all the possibilities currently available can be exploited following uniform pathways. The volume represents an innovative attempt to deal with such topics, usually relegated into very quick and general treatments within journal articles or papyrological handbooks.

Human Cities: Celebrating Public Space combines theoretical, practical and artistic approaches related to public space. The first part - Public for place - concentrates on networks and actions people are involved in when creating social environments in c

Don Juan of Austria, one of history ' s most triumphant and inspiring heroes, is reborn in this opulent novel by Louis de Wohl. Because of the circumstances of his birth, this last son of Emperor Charles the Fifth spent his childhood in a Spanish peasant ' s hut. Acknowledged by King Philip as his half-brother, the attractive youth quickly became a central figure in a Court where intrigues and romances abounded. Don Juan ' s intelligence, kindness and devout attachment to the Church enabled him to live in an environment of unscathed luxury, violence and treachery. De Wohl paints in brilliant color scenes at the Court of King Philip, Juan ' s campaign against barbaric Moriscos in Andalusia and the climatic victory at Lepanto where he saved the Christian world from Islamic dominance. The Last Crusader abounds in vivid scenes and characters. Who can forget the sadistic nature of the Prince of Asturias, the

spirituality of Fray Juan de Calahorra, the scheming of beautiful Princess Ana of Eboli, the barbaric siege of Malta, or Emperor Charles the Fifth waiting for death, in his stygian throne room? Here is a novel of high adventure which brings to life the turbulence of the sixteenth century with its extremities of the wickedness and piety, its sins of pride and conquest, its seething heresies. With his strong talent for exciting historical narrative, Louis de Wohl adds another great dynamic novel to his already lustrous career.

Point and click your way to performing statistics! Many people are intimidated by learning statistics, but *A Gentle Introduction to Statistics Using SAS Studio in the Cloud* is here to help. Whether you need to perform statistical analysis for a project or, perhaps, for a course in education, psychology, sociology, economics, or any other field that requires basic statistical skills, this book teaches the fundamentals of statistics, from designing your experiment through calculating logistic regressions. Serving as an introduction to many common statistical tests and principles, it explains concepts in an intuitive way with little math and very few formulas. The book is full of examples demonstrating the use of SAS Studio 's easy point-and-click interface accessed with SAS OnDemand for Academics, an online delivery platform for teaching and learning statistical analysis that provides free access to SAS software via the cloud. Topics included in this book are: How to access SAS OnDemand for Academics Descriptive statistics One-sample tests T tests (for independent or paired samples) One-way analysis of variance (ANOVA) N-way ANOVA Correlation analysis Simple and multiple linear regression Binary logistic regression Categorical data, including two-way tables and chi-square Power and sample size calculations Questions are provided to

test your knowledge and practice your skills.

Ovid's *Fasti*, his poem on the Roman calendar, became especially influential during the fifteenth century as a guide to classical Roman culture. Ovid's treatment of mythological and astronomical lore, his investigation of anniversaries and customs, and his charting of monuments and history offered humanist poets and intellectuals an abundance of material to unravel. They could identify with Ovid as *vates operosus*, or hard-working seer-poet, suggesting both researcher and inspired authority. Angela Fritsen's *Antiquarian Voices: The Roman Academy and the Commentary Tradition on Ovid's Fasti* offers the first study of the Renaissance exegesis and imitation of Ovid as antiquarian. Fritsen analyzes the *Fasti* commentaries by Paolo Marsi (1440-1484) and Antonio Costanzi (1436-1490) as well as the connections between the two works. It situates Ovidian *Fasti* studies in the Roman Academy under the mentorship of Pomponio Leto. Nowhere could the investigation of the *Fasti* be carried out better than in Rome. The humanists had a guide to the City in Ovid. They also regarded the *Fasti* as well suited to the ideology of the ancient Roman imperium's renewal in modern papal Rome. *Antiquarian Voices* illustrates how in reviving the *Fasti*, the humanists returned Rome to its original splendor. The book demonstrates that the humanists were eager to relate the *Fasti* to their antiquarian pursuits--as well as to their rising personal fame.

Offers complete in-depth preparation for the Cambridge IGCSE in English as a Second Language (E2L) examination. The revised edition of this highly successful course offers complete preparation for all papers of the Cambridge IGCSE in English as a Second Language

examination. The book is endorsed by Cambridge for use with the revised syllabus. Key features include: stimulating topics, international in perspective and relevant to IGCSE students educational needs and interests; step-by-step development of the four skills to build confidence and competence; particular attention to developing a mature writing style with a focus on tone, register and audience awareness; exercises in grammar, vocabulary and spelling.

Solomon Northup was born a free black man. He was kidnapped, tortured, and sold into slavery. For 12 years, he was kept in bondage as a slave in Louisiana--Twelve Years a Slave is his moving and raw account of survival and life as a slave. This edition includes the full book as well as a comprehensive companion with historical notes, character overview, themes overview, and chapter summaries.

Raccolta di esercizi svolti per studenti delle scuole superiori o universitari. Gli argomenti trattati sono, in generale: trigonometria, limiti, derivate, integrali, successioni. Tutti gli esercizi sono svolti passo a passo e sono presenti grafici illustrativi.

**DEBUNKING THE "EVIDENCE" BEHIND THE EVOLUTIONIST WORLDVIEW:** Throughout the last half of the twentieth century, and now into the new millennium, the public has been fed a steady diet of anti-Biblical propaganda by an increasingly determined cadre of evolutionist scientists, educators and media outlets. The result of this concerted effort has been a shifting of public consciousness away from Biblical truth and into a new paradigm in which belief in

## Get Free Soluzioni Libro Expedite Plus

some form of Darwinian evolution has become a Litmus test of acceptability in our society. But is this paradigm shift founded on legitimate scientific evidence? The answer to this question is a resounding NO. Over the last several decades, scientists in widely varied disciplines have refuted much of the "evidence" behind today's various competing evolution theories. The time has finally come to expose evolution for what it is: delusion. Kenneth Lawrence was born in British Columbia, Canada, where he currently resides. He has had an intense interest in science most of his life. A believer in Darwinian evolution for many years, Ken became a Christian at the age of twenty-three, but had difficulty accepting a straightforward reading of the Bible's account of origins for many years. In his late forties, Ken began to seriously investigate the scientific claims of evolution theory. Nearly a decade of personal research has resulted in an invigorated faith in the God of the Bible and in the writing of this book.

Since 2014, the Human Cities network has been working on Challenging the City Scale: a pan-European project led by Cité du design Saint-Étienne and supported by the Creative Europe programme to question the urban scale and investigate co-creation in cities. The Human Cities partners have carried out urban experimentations in 11 European cities empowering citizens to rethink the spaces in which they live, work and spend their leisure time. Through conversations with people involved, the book examines how bottom-up processes and their design, tools and instruments generate new ideas to reinvent the city. It offers inspiration and insights to everyone, from practitioners and politicians to designers and active citizens, eager to try out new ways to produce more human cities together.
