As the first of its kind, Cell Phone Investigations is the most comprehensive book written on cell phones, cell sites, and cell related data. This book also features sample search warrant templates and updated material regarding the 2014 Supreme Court ruling. Cell Phone Investigations demonstrates how to examine mobile devices and sift through data without expensive equipment or years of specialized training. Features: -Includes a vast selection of search warrant templates -Demonstrates how to acquire phone records and how they are useful -Explains how cell towers and cell sites work and how they can apply to investigations -Explores digital evidence and its application in cell phone forensics -Illustrates how to handle locked devices

Mitchell is an alpha among alphas in the brutal Mountain Ridge Pack. He rules with equal parts fear and respect, but his pack is growing restless after decades without an heir to his proverbial throne. Only an alpha and an omega pair can sire another alpha to lead the pack, but Mitchell's not-so-secret shame is the fact that he hasn't been able to impregnate any of his female omegas.Unlike the other weaker packs, the Mountain Ridge wolves have always kept their omegas in line and at a safe distance through the infamous yet efficient Breeding Program. On the recommendation of an old rival turned tentative friend, Mitchell decides to try his hand--among other things--in a last-ditch effort at siring an heir with a rare male omega. When a transfer request for one of the only male omegas in the pack uncovers unspeakable abuse and corruption within the Breeding Program, the very future of the pack is thrown into question. -Angel's heart has turned to stone after a lifetime of abuse at the hands of the alpha shifters who oversee the Breeding Program in his pack unit. The only love he has left belongs to the three other omegas he shares his little corner of hell with. Angel will do whatever it takes to protect them, even if it means becoming the mate of the top alpha himself.Angel knows better than to believe the gruff Mitchell when he claims that he's not like the others. Despite his best attempts to steel himself against the strange bond that forms between them, Angel discovers that Mitchell is the most dangerous alpha of all because he wants the one thing Angel has sworn never to give--his heart.With war looming on the horizon, a pack in chaos and two hardened hearts melted by an unlikely spark of love, only one outcome is certain. The Mountain Ridge Pack will never be the same.Disclaimer: See inside cover for content warnings. This is the second book in The Mountain Shifters series. Reading His Unclaimed Omega may provide context, but this book can be read as a standalone.

While at the zoo Pat the Bunny pets the animals, from a wrinkly elephant to a feathery parrot. On board pages.

It is an acknowledged if not accepted fact that all European societies are being fundamentally transformed, and indeed perceptively unsettled, by increased migrations across nations and by the asserted presence of established minorities within their borders. The scale and speed at which these transformations have taken place have brought in their wake considerable social impacts and no small measure of fear and anxiety. Encounters with such diversity are part and parcel of the social work task, and learning how to negotiate them should be a de facto aspect of the training and continuous professional development of social workers and other social professions. However, the moral and political dimensions of the role, scope and nature of the social work task in responding appropriately to these changed and changing realities are rather more contested. This volume addresses many dimensions of the response to issues of race and ethnicity in social work practice in Europe. It extends the debates on inter-cultural and race equality practice in social work through a stimulating and innovative collection of contributions. This book was originally published as a special issue of the European Journal of Social Work.

In a world divided into fliers and non - fliers, how far would you go to be able to fly? How much would you sacrifice - your own child'...

The End of Chiraq: A Literary Mixtape is a collection of poems, rap lyrics, short stories, essays, interviews, and artwork about Chicago, the city that came to be known as "Chiraq" ("Chicago" + "Iraq"), and the people who live in its vibrant and occasionally violent neighborhoods. Tuned to the work of Chicago's youth, especially the emerging artists and activists surrounding Young Chicago Authors, this literary mixtape unpacks the meanings of ¡Chiraq! as both a vexed term and a space of possibility. "Chiraq" has come to connote the violence¡interpersonal and structural!that many Chicago youth regularly experience. But the contributors to The End of Chiraq show that Chicago is much more than Chiraq. Instead, they demonstrate how young people are thinking and mobilizing, engaged in a process of creating a new and safer world for themselves, their communities, and their city. In true mixtape fashion, the book is an exercise in "low end theory" that does not just include so-called underground and marginal voices, but foregrounds them. Edited by award-winning poets, writers, and teachers Javon Johnson and Kevin Coval, The End of Chiraq addresses head-on the troublesome relationship between Chicago and Chiraq and envisions a future in which both might be transformed.

This 14-chapter introduction to programming with Java at the CS-1 level, uses multimedia-based programs as a means of instruction. Multimedia is a combination of various media such as text, audio, video, images, graphics and animation. With this book, students will learn Java using programs that draw graphics and images, perform animation, read and play music files, display video, and more. This text uses clear explanations and illustrations, and does not require prior programming experience, knowledge of graphics, or other media API's.Programming with Java: A Multimedia Approach covers topics such as variables, data types, literals, operators, creating objects, Java 2D classes, user-defined classes, inheritance, interfaces, exception handling, GUI programming, generics and collections, and multithreaded programming. It also provides introductions to arrays and the scanner class.TuringsCraft CodeLab access is available for adopting professors. Custom CodeLab: CodeLab is a web-based interactive programming exercise service that has been customized to accompany this text. It provides numerous short exercises, each focused on a particular programming idea or language construct. The student types in code and the system immediately judges its correctness, offering hints when the submission is incorrect.

An award-winning novel, Sazzae opens the door to a wondrous cityscape where Japanese and American youth find each other in Tokyo. Discover the machinations of a lovers' triangle, a painter's inspiration, and a teen idol's dark secret through sensuous and evocative language. The pain and pleasures of Japan are remembered with lyric passion.
