Ott's "Basic Statistical Ideas for Managers," and "The Practice of Business Statistics: Using Data for Decisions," by D.S. Moore et al.

~~Statistics for Business and Economics~~ ~~–Bookboon~~

Statistics for Business and Financial Economics, 3rd edition is the definitive Business Statistics book to use Finance, Economics, and Accounting data throughout the entire book.

Therefore, this book gives students an understanding of how to apply the methodology of statistics to real world situations.

STATISTICS FOR BUSINESS AND ECONOMICS is a comprehensive textbook on Statistics that caters to the

Read Online Statistics For Business And Economics

needs of students doing a course of any level in the subject. As consumers and future managers, students are introduced to a range of data collection and analysis methods that enable them to evaluate such data and analyse them to reach well informed decisions in various business settings. The thorough and exhaustive text, supplemented by a large number of solved examples, provides a firm grounding in the basics of Statistics. The step-by-step explanations and the logical progression of subject topics go a long way in simplifying the various concepts, methods and problem-solving processes comprising the subject. The book exposes the entire subject matter in a manner that aids easy comprehension and the basic learning of the subject even by those who have not studied it earlier. A large

Read Online Statistics For Business And Economics

Solutions number of questions and exercises at the end of each chapter provide ample scope for practice and application of methods discussed in the book.

Solutions to problems are provided in the CD that accompanies the book.

The book is useful for students of management, economics and commerce, in which Statistics is a core paper in almost all universities. It is also useful for those preparing for various competitive exams.

This title enables students to conduct serious analysis of applied problems rather than running simple 'canned' applications. The text is at a mathematically higher level than most business statistics texts and provides students with the knowledge they need to become stronger analysts for future managerial positions.
