In a work of sweeping scope and luminous detail, Elizabeth Borgwardt describes how a cadre of World War II American planners inaugurated the ideas and institutions that underlie our modern international human rights regime. Borgwardt finds the key in the 1941 Atlantic Charter and its Anglo-American vision of "war and peace aims." In attempting to globalize what U.S. planners heralded as domestic New Deal ideas about security, the ideology of the Atlantic Charter--buttressed by FDR's "Four Freedoms" and

Online Library The American Vision Modern Times Teacher Edition

the legacies of World War I--redefined human rights and America's vision for the world. Three sets of international negotiations brought the Atlantic Charter blueprint to life--Bretton Woods, the United Nations, and the Nuremberg trials. These new institutions set up mechanisms to stabilize the international economy, promote collective security, and implement new thinking about international justice. The design of these institutions served as a concrete articulation of U.S. national interests, even as they emphasized the importance of working with allies to achieve common goals. The American architects of these charters were attempting to redefine the idea of security in the international sphere. To varying degrees, these institutions and the debates surrounding them set the foundations for the world we know today. By analyzing the interaction of ideas, individuals, and institutions that transformed

Online Library The American Vision Modern Times Teacher Edition

American foreign policy--and Americans' view of themselves--Borgwardt illuminates the broader history of modern human rights, trade and the global economy, collective security, and international law. This book captures a lost vision of the American role in the world.

New edition provides a clear pathway through the content to maximize class time and minimize preparation time with lesson plans, activities and assessment based on the research of Jay McTighe, co-author of *Understanding by Design*.

Edition

An insider's account of how politicians representing a radical white minority of Americans have used "the world's greatest deliberative body" to hijack our democracy. Every major decision governing our diverse, majority-female, and increasingly liberal country bears the stamp of the United States Senate, an institution controlled by people who are almost exclusively white, overwhelmingly male, and disproportionately conservative. Although they do not represent a majority of Americans—and will not for the foreseeable future—today's Republican senators possess the power to block most legislation. Once known as "the world's greatest deliberative body," the Senate has become one of the greatest threats to our democracy. How did this happen? In *Kill Switch*, Senate insider

Online Library The American Vision Modern Times Teacher Edition

Adam Jentleson contends that far from reflecting the Framers' vision, the Senate has been transformed over the decades by a tenacious minority of white conservatives. From John Calhoun in the mid-1800s to Mitch McConnell in the 2010s, their primary weapon has been the filibuster, or the requirement that most legislation secure the support of a supermajority of senators. Yet, as Jentleson reveals, the filibuster was not a feature of the original Senate and, in allowing a determined minority to gridlock the federal government, runs utterly counter to the Framers' intent. For much of its history, the filibuster was used primarily to prevent civil rights legislation from becoming law. But more recently, Republicans have refined it into a tool for imposing their will on all issues, wielding it to thwart an increasingly progressive American majority represented by Barack Obama's agenda and appointees.

Online Library The American Vision Modern Times Teacher Edition

Under Donald Trump, McConnell merged the filibuster with rigid leadership structures initially forged by Lyndon Johnson, in the process surrendering the Senate's independence and centrality, as infamously shown by its acquiescence in Trump's impeachment trial. The result is a failed institution and a crippled democracy. Taking us into the Capitol Hill backrooms where the institution's decline is most evident, Jentleson shows that many of the greatest challenges of our era—partisan polarization, dark money, a media culture built on manufactured outrage—converge within the Senate. Even as he charts the larger forces that have shaped the institution where he served, Jentleson offers incisive portraits of the powerful senators who laid the foundation for the modern Senate, from Calhoun to McConnell to LBJ's mentor, Richard Russell, to the unapologetic racist Jesse Helms. An essential, revelatory

Online Library The American Vision Modern Times Teacher Edition

investigation, Kill Switch ultimately makes clear that unless we immediately and drastically reform the Senate's rules and practices—starting with reforming the filibuster—we face the prospect of permanent minority rule in America.

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bitingly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued

Online Library The American Vision Modern Times Teacher Edition

that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.
