A major refernce work for collectors and historians, and a highly readable study for a general audience, this is the first book about painted furniture in Canada and the first broad examination of furniture from French Canada in over three decades.

The French interior evokes a way of life to aspire to, with its good food, unhurried pace and, above all, its past for which many people feel nostalgia. Developed over hundreds of years, the French look reflects all tastes, from the cultivated grandeur of the chateau to the simplicity of rural living, and can be adapted to every home. Creating the French Look is divided into four styles: 'Chateau', 'Country', 'Provençal' and 'Parisian', and each "look" is applied to living rooms, kitchens, dining rooms, bedrooms and bathrooms plus outdoor living spaces. As well as describing each overall style, focusing on colours and fabrics, Annie Sloan emphasizes the details and accents required by each one, and, aided by 25 clearly explained step-by-step projects, shows how to achieve it. Among other things, she explains how to paint and distress furniture, and describes how to cover an armoire door with embroidered voile. Whatever interior you desire, this book will guide your choices from the grand statement of the painted armoire to the finishing touch of a little posy of lavender.

The French look is one of the most popular and enduring for modern interiors-appreciated for its simple, uncluttered style and ornate individual pieces. Whether you want to make grand curtains like those from a chateau or paint a cupboard in rustic style, Creating the French Look shows you how. Twenty-five step-by-step projects demonstrate the three definitive styles of French decoration: The gilded elegance of the French chateau, the simple French farmhouse and its more colorfulProvençal counterpart, and the urban, tailored town house.- Discover how to achieve French decorative style by using the right colors and fabrics.- Get to grips with scale-from the grand statement of the painted armoire to the finishing touch of a little posy of lavender.- Each section includes a wealth of techniques using paint and textiles.

'A glossary and a chapter of tips on conservation, restoration and care of painted furniture makes this a useful handbook as well as a beautifully illustrated encyclopedia of an enduring style.' ---Chicago Tribune

A new look is emerging in France's apartments as well as its imposing chateaux and country manors. Along with signature pieces of national identity—such as finely crafted wood pieces, splendid mirrors, and grandmère's well cared for linens—European mid-century modern furnishings also adorn settings in this age of merging sensibilities. Homes photographed in France and the U.S. show abstract works of art mingling easily with painted furniture, budget-friendly finds from assorted cultures—such as wool rugs and handembroidered linens from India—and pottery, artisan-made pillows, throws and vintage textiles from remote markets in Morocco. BETTY LOU PHILLIPS, ASID, is the author of a dozen books on French design, including her most recent, The Allure of French and Italian Décor, French Impressions and Inspirations from France and Italy. Ms. Phillips lives in Dallas, Texas.
