The Scramble for China also deserves attention for its cool, incisive treatment of some enduring issues. For example, Bickers' treatment of the Qing court does not attempt to conceal, indeed brings out the subtlety of its position as both Manchu in its internal identity and Chinese on an international level.

"The Scramble for China" is both highly original and brilliantly written - it reimagines these encounters between two equally arrogant and scornful civilizations, whether from the point of view of a Chinese governor or a British soldier. It is an epic of squalor, romance, brutality and exoticism, and it changed the world.

China in 1910 Concessions in China were a group of concessions that existed during the late Imperial China and the Republic of China, which were governed and occupied by foreign powers, and are frequently associated with colonialism. Most had extraterritoriality and were enclaves inside key cities that became treaty ports.

Scramble for Concessions  
China's defeats in the so-called Opium Wars brought on the unequal treaty system. Its main features, extraterritoriality and the 5 percent ad valorem tariff, clearly reflected imperialist imposition on China's integrity and the decline of the Qing dynasty.
