Current applications (or rather, misapplications) of Islamic law are reductionist rather than holistic, literal rather than moral, one-dimensional rather than multidimensional, binary rather than multi-valued, deconstructionist rather than reconstructionist, and causal rather than teleological. There is lack of consideration and functionality of the overall purposes and underlying principles of the Islamic law as a whole. Further, exaggerated claims of ‘rational certainty’ (or else, ‘irrationality’) and ‘consensus of the infallible’ (or else, ‘historicity of the scripts’) add to lack of spirituality, intolerance, violent ideologies, suppressed freedoms, and authoritarianism. Thus, a maqasidi approach takes juridical issues to a higher philosophical ground, and hence, overcomes (historical) differences over politics between Islamic schools of law, and encourages a much-needed culture of conciliation and peaceful coexistence. Moreover, the realization of purposes should be the core objective of all fundamental linguistic and rational methodologies of ijtihad, regardless of their various names and approaches. Thus, the validity of any ijtihad should be determined based on its level of achieving ‘purposefulness,’ or realizing maqasid al-shari’ah.

A sensation upon its publication in 1970, Sexual Politics documents the subjugation of women in great literature and art. Kate Millett's analysis targets four revered authors–D. H. Lawrence, Henry Miller, Norman Mailer, and Jean Genet–and builds a damning profile of literature's patriarchal myths and their extension into psychology, philosophy, and politics. Her eloquence and popular examples taught a generation to recognize inequities masquerading as nature and proved the value of feminist critique in all facets of life. This new edition features the scholar Catharine A. MacKinnon and the New Yorker correspondent Rebecca Mead on the importance of Millett's work to challenging the complacency that sidelines feminism.
