What on Earth Have I Done? is an armchair tour of everyday life as seen by Robert Fulghum, one of America's great essayists, a man who has two feet planted firmly on the earth, one eye on the heavens and, at times, a tongue planted firmly in his cheek.

Fulghum writes to his fellow travelers, with a sometimes light heart, about the deep and vexing mysteries of being alive and says, "This is my way of bringing the small boat of my life within speaking distance of yours."
