Wiring

~~Textbook~~

The electrical wiring colour codes followed is slightly different in every part of the world depending on the standards they follow. Even there are different colour codes for AC and DC wires. For example, in Canada, you can

Online Library

Wiring

find Red, black and blue wires for three-phase, whereas, in Australia, it is Yellow, blue and black.

~~Electrical wiring
colour codes—
Important~~

In addition to the main electrical wiring color code standards

Online Library

Wiring

mentioned above, there are other standards as well, such as the International/North American Conductor Color Coding. These standards have subtle differences with each other but mainly use green color and white color for earth wire

Online Library

Wiring

and neutral wire
standards color
